THE 25 HORSES

SEVEN RACES. NO STOPWATCH.

THE CASE IN ONE LINE
Twenty-five horses, five lanes, no stopwatch — seven races to crown the three fastest, in order.

THE COMPLETE PRODUCTION PACK — STORY · SCRIPT · NARRATION · EVERY PROMPT

WHAT'S INSIDE

One riddle, taken all the way from story to posted video. Every page does one job.

THE CASE
the story, exactly as the viewer hears it

THE QUESTION + THREE HINTS
the hook and the ladder

YOUR MOVE
the pause page — where comments are born

THE REVEAL + WHY IT WORKS
the verified answer, watertight

THE TRAP + COMMENT ENGINEERING
why brains fail it, and how the debate is seeded

CHARACTER & STYLE LOCK

the checks before anything posts

AI — WHO DOES WHAT
every step, and whose job it is

THE CASE

You have 25 horses and a track with 5 lanes. There is no stopwatch: a race tells you only the finishing order of the horses in it.

Every horse runs at exactly the same speed in every race — no tired legs, no lucky days. A horse that beats another once will beat it always.

You may run exactly 7 races. At the end you must name the fastest, second-fastest and third-fastest horses of the whole stable — in the correct order, guaranteed.

THE QUESTION

How do 7 races guarantee the fastest three, in order?

THE QUESTION + THREE HINTS

Open them one at a time. Stop the moment you have it — the last hint nearly gives it away.

THE QUESTION

How do 7 races guarantee the fastest three, in order?

HINT 1

Spend the first five races buying information cheaply: heats of five, every horse runs once.

HINT 2

Race 6 is the key — the five heat winners against each other. It crowns the fastest horse alive and ranks the heats themselves.

HINT 3

After race 6, most horses are provably out of the top three: any horse beaten by three proven-faster horses can be discarded. Count who survives.

YOUR MOVE

How do 7 races guarantee the fastest three, in order?

Decide your answer now — say it out loud or drop it in the comments — before you turn this page. No going back.

THE REVEAL

THE ANSWER

Five heats, one winners' race, one final. The winners' race crowns the fastest and cuts the field to three candidates for the last race.

Race the 25 in five heats of five. Then race the five heat-winners: the winner is the fastest horse overall, and the finishing order ranks the heats. Say the winners' race finishes A1 (best heat), B1, C1, D1, E1, and inside A's heat the order was A1, A2, A3.

Who can still be second or third overall? Only five horses: A2 and A3 from the champion's heat, B1 and B2 from the second heat, and C1 from the third — every other horse already has three horses proven faster than it. Those five run the seventh race, and its first two finishers are second and third overall.

WHY IT WORKS

The design spends information, not races: heats don't just find winners, they build chains of proof. One winners' race converts 25 unknowns into a ranked structure where a single final race can finish the job.

The count is exact: 5 heats + 1 winners' race + 1 candidates' race = 7. Six races cannot both rank the heats and settle the candidates — the arithmetic of proof forbids it.

THE TRAP + COMMENT ENGINEERING

THE TRAP, NAMED

Racing elimination-style, winner-stays-on: it finds the fastest horse and learns almost nothing about second and third, which is where the riddle is actually won or lost.

This riddle is built to split the comments into two camps. Seed both, then let them argue:

CAMP A SAYS

Team KNOCKOUT: 'Winner stays on. Keep racing champions against challengers until a top three emerges — seven races is plenty.'

CAMP B SAYS

Team HEATS: 'Five heats, a winners' race, then five candidates in a final. The heats build the proof — 5+1+1 = 7.'

PIN THIS COMMENT

Post your 7-race plan BEFORE the reveal. Which horses run race 7?

CHARACTER & STYLE LOCK

[VAULT-2D] STYLE LOCK — flat 2D storybook animation, deep-navy night palette with one lime accent, clean shapes, soft moonlight, no text inside the picture except where a prompt says so, vertical 9:16. Characters never change design between clips: generate the reference stills first, then build every clip from them.

LOCK
Horses are told apart by coat colour only, and a horse's colour never changes between races. Heat groups keep their colours consistent so viewers can track them.

LOCK
Lane counts and group sizes are story facts: five lanes, heats of five, five heat winners, five final candidates. Check every race frame's horse count.

LOCK
No clocks, timers or speed numbers appear anywhere. All labels — heat letters, finishing orders — are drawn in editing.

Never redesign a locked character mid-video. If a generation drifts, regenerate the still — never accept a near-match.

REFERENCE IMAGE PROMPTS

Generate these stills first, in this order, and check each one before any video clip is made.

REF 1
REF-TRACK: flat 2D storybook illustration, vertical 9:16, a dirt racetrack with five clear lanes at dawn, empty, starting gate at the near end, soft golden light, no horses, no text.

REF 2
REF-HEATS: flat 2D storybook illustration, vertical 9:16, five groups of five horses standing behind a start line in five lanes, seen from a high three-quarter view, morning palette, no numbers, no text.

REF 3
REF-WINNERS: flat 2D storybook illustration, vertical 9:16, five horses racing neck and neck down a dirt track toward the viewer, dust clouds, dramatic dawn light, no text.

REF 4
REF-FIVE: flat 2D storybook illustration, vertical 9:16, exactly five horses standing spaced apart on an empty track in pools of light, the rest of the track dark and empty, no text.

VIDEO PROMPT 1 OF 6

PICTURE — what Flow builds
A wide dirt track at dawn with five lanes stretching away. Twenty-five horses stand in five loose groups behind the start line. Slow push-in.

NARRATION — generated inside this clip
"Twenty-five horses. Five lanes. No stopwatch — a race only tells you who finished ahead of whom."

Sound: Dawn birds, a restless stable murmur.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 2 OF 6

PICTURE — what Flow builds
Five quick race flashes, one per heat: five horses thunder down the lanes and cross in a clear order, dust hanging in the morning light.

NARRATION — generated inside this clip
"Every horse runs the same speed every time. No luck, no tired legs. You have exactly seven races."

Sound: Hooves and dust, five times over.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 3 OF 6

PICTURE — what Flow builds
A sixth race, slower and grander: the five heat winners explode from the start together, the whole stable watching from the rails.

NARRATION — generated inside this clip
"Name the fastest three horses of the whole stable — in the correct order. Guaranteed."

Sound: A deeper drum of hooves, a crowd rising.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 4 OF 6

PICTURE — what Flow builds
Freeze on the winners' race finish, five horses strung across the line, perfectly still. Leave the lower third open.

NARRATION — generated inside this clip
"How do you spend the seven races? Lock your plan in the comments before the reveal."

Sound: Silence over the finish line.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 5 OF 6

PICTURE — what Flow builds
The field empties in waves: whole groups of horses are led away and dimmed, until only five horses remain lit on the track, spaced apart.

NARRATION — generated inside this clip
"Five heats of five — every horse runs once. Then the five heat winners race: that crowns the fastest horse alive, and ranks the heats."

Sound: Gates opening, horses led away.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 6 OF 6

PICTURE — what Flow builds
The seventh race, intimate and quiet: five horses run, and the first two cross into a pool of golden light as the track settles.

NARRATION — generated inside this clip
"Only five horses can still matter. They run the last race, and its first two finishers are second and third. Seven races. Done. Follow for daily riddles."

Sound: Hooves fading into morning calm.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

AGENT MASTER PROMPT

Paste this whole prompt to the agent (Google Antigravity) with this book. It runs the video build end to end.

MASTER PROMPT

You are producing a 60-second vertical riddle video, 'THE 25 HORSES'. Use the story, hints and reveal in this book as the script — do not invent a different answer. Step 1: generate the reference stills from the Reference Image Prompts page, in order, and check each against the Character & Style Lock. Step 2: build the six clips in Google Flow, one per Video Prompt page, using Frames-to-Video from the checked stills, one tiny action per clip, narration generated inside each clip using the locked voice. Step 3: assemble the clips in order 1-6, keep the question on screen until the reveal clip, captions in the series style, no dead air. Step 4: run the Edit Checklist page and fix every failure before export. Deliver a 1080x1920 MP4.

VOICE LOCK — one warm American male narrator, 30-35, calm and confident, slightly amused at the question beats, dead serious at the reveal. Same voice, same pace, every clip. The narration is generated INSIDE each Flow clip; listen-check every clip and regenerate only failures.

NARRATION SCRIPT

Six lines, about ten seconds each — sixty seconds in total. Record or generate them exactly as written.

LINE 1 · 0:00
"Twenty-five horses. Five lanes. No stopwatch — a race only tells you who finished ahead of whom."

LINE 2 · 0:10
"Every horse runs the same speed every time. No luck, no tired legs. You have exactly seven races."

LINE 3 · 0:20
"Name the fastest three horses of the whole stable — in the correct order. Guaranteed."

LINE 4 · 0:30
"How do you spend the seven races? Lock your plan in the comments before the reveal."

LINE 5 · 0:40
"Five heats of five — every horse runs once. Then the five heat winners race: that crowns the fastest horse alive, and ranks the heats."

LINE 6 · 0:50
"Only five horses can still matter. They run the last race, and its first two finishers are second and third. Seven races. Done. Follow for daily riddles."

VOICE LOCK — one warm American male narrator, 30-35, calm and confident, slightly amused at the question beats, dead serious at the reveal. Same voice, same pace, every clip. The narration is generated INSIDE each Flow clip; listen-check every clip and regenerate only failures.

THE THUMBNAIL

THE IDEA

Five heat winners bursting from the gate under dawn light. Edit-drawn text: '7 RACES. NO STOPWATCH.'

IMAGE PROMPT

Flat 2D storybook illustration, vertical 9:16: five horses racing down a five-lane dirt track at dawn, dust flying, dramatic golden light, the top third of the frame left empty for title text, no text in the image.

Rules: the question, never the answer. Three words or fewer of big text, drawn in editing — generated lettering garbles. Check it at profile-picture size before posting.

POSTING COPY

TITLE OPTIONS — pick one:

TITLE
25 Horses, 7 Races, No Stopwatch — Find the Fastest 3

TITLE
The Horse Race Puzzle That Needs a Proof, Not a Timer

TITLE
How 7 Races Crown the Top 3 of 25 Horses

CAPTION — first line is the question
25 horses, 5 lanes, no stopwatch, 7 races — name the fastest three, in order. Post your race plan BEFORE the reveal. New riddle every day.

PINNED COMMENT
Post your 7-race plan BEFORE the reveal. Which horses run race 7?

Hashtags: #riddle #logicpuzzle #brainteaser #horses #mathspuzzle #puzzle #dailypuzzle

EDIT CHECKLIST

Nothing posts until every line passes.

CHECK
Frame-check every beat: characters match the lock, no drift, no warped hands or faces.

CHECK
Every number and word on screen is drawn in editing and read back — generated text is never trusted.

CHECK
The question stays on screen until the reveal beat; the answer never appears early — not in a caption, not in a frame.

CHECK
Listen to the full cut: one voice throughout, no dead air, no clip where the narration went missing.

CHECK
The reveal lands in the final seconds; the last frame carries the follow prompt.

CHECK
Thumbnail checked small; title and caption lead with the question, never the answer.

AI — WHO DOES WHAT

Every step of this book's video, and whose job it is.

THE AGENT (Antigravity)
Reads this book, plans the shots, writes the generation queue, assembles the edit, runs the checklist.

GOOGLE FLOW
Generates the reference stills, then the six clips with the narration inside each clip.

THE EDITOR (you, or the agent)
Draws all on-screen text and numbers, sets captions, checks every frame and every second of audio.

THE CHANNEL
Posts with the title, caption and pinned comment from the Posting Copy page — question first, answer never.

Part 2 idea: The budget cut: the stable buys a sixth lane. Let the comments redesign the plan for 25 horses in fewer, wider heats before Part 2 prices the new minimum.

ABOUT THIS BOOK

One riddle, taken seriously: a verified answer, a locked visual style, and the complete route from page to posted video — script, narration, image prompts, video prompts, thumbnail and posting copy, all in one pack.

OWNERSHIP
This book — its text, structure and design — is owned by OTT TITANS. Reading or downloading it grants you the right to enjoy it and to produce your own version of the riddle video on your own channels. It never transfers ownership of the book.

The riddle itself is a classic that has travelled for years. This pack — its words, structure and production system — is the original work.

CASE CLOSED

Five heats, one winners' race, one final. The winners' race crowns the fastest and cuts the field to three candidates for the last race.

A new riddle lands every day. Solve the next one before the reveal.

— END OF BOOK —
