AI — WHO DOES WHAT
every step, and whose job it is

THE CASE

A man is found lying dead in the middle of an empty field. There are no tracks leading to the body, no vehicle anywhere, and no one else around.

Beside him lies a package. It has never been opened — and it should have been. The man was counting on it opening.

Had he known the package would fail to open, he would never have been in that field at all. Whatever brought him there left no trace on the ground.

THE QUESTION

What is the package — and how did the man get into the field?

THE QUESTION + THREE HINTS

Open them one at a time. Stop the moment you have it — the last hint nearly gives it away.

THE QUESTION

What is the package — and how did the man get into the field?

HINT 1

Explain the missing tracks first. Everything that arrives in a field leaves a trace — unless it doesn't arrive by ground at all.

HINT 2

The package was supposed to open by itself, at the right moment, and save him. What do people carry that must open, or they die?

HINT 3

He fell into this case. Literally.

YOUR MOVE

What is the package – and how did the man get into the field?

Decide your answer now — say it out loud or drop it in the comments — before you turn this page. No going back.

THE REVEAL

THE ANSWER

The package is his parachute. He jumped from a plane; the parachute never opened, and he fell to his death.

The man was a skydiver. He jumped from a plane high above the field, pulled for his parachute — and the pack on his back never opened.

That single fact explains the whole scene: no tracks and no vehicle, because he arrived from the sky; a package beside him that was never opened, because the parachute pack is the package; and a man who would never have jumped at all, had he known it would fail.

WHY IT WORKS

Three anomalies — no approach, an unopened package, a man who needed it open — are really one fact stated three ways. Lateral solutions feel inevitable in hindsight because every clue was load-bearing.

Notice the riddle never says he carried the package in his hands. 'Beside him lies a package' — a parachute pack lies beside its owner in exactly the same words.

THE TRAP + COMMENT ENGINEERING

THE TRAP, NAMED
Treating the package as a delivery — a bomb, a ransom, a poison parcel. Those explain the package but abandon the tracks; the winning answer must explain every anomaly at once.

This riddle is built to split the comments into two camps. Seed both, then let them argue:

CAMP A SAYS
Team DELIVERY GONE WRONG: 'A courier, a drop, something in the package he needed — medicine, a bomb, proof. The package is the story.'

CAMP B SAYS
Team PARACHUTE: 'No tracks because he fell. The package never opened because it was the parachute. One fact explains everything.'

PIN THIS COMMENT

CHARACTER & STYLE LOCK

[VAULT-2D] STYLE LOCK — flat 2D storybook animation, deep-navy night palette with one lime accent, clean shapes, soft moonlight, no text inside the picture except where a prompt says so, vertical 9:16. Characters never change design between clips: generate the reference stills first, then build every clip from them.

LOCK
The scene is always treated with restraint: the figure is distant or framed out of focus; nothing graphic is ever shown. The story is told through the field, the sky and the pack.

LOCK
The pack is one fixed design — same straps, buckles and ripcord — and it is never open in any frame. An opened canopy anywhere fails the clip.

LOCK
The field has no road, fence gate, vehicle or footprints in any generated frame. The emptiness is evidence and must stay empty.

Never redesign a locked character mid-video. If a generation drifts, regenerate the still — never accept a near-match.

REFERENCE IMAGE PROMPTS

Generate these stills first, in this order, and check each one before any video clip is made.

REF 1
REF-FIELD: flat 2D storybook illustration, vertical 9:16, a wide empty grass field under a huge sky, no roads or buildings, one small distant still figure in the centre, respectful composition, no text.

REF 2
REF-PACK: flat 2D storybook illustration, vertical 9:16, an unopened parachute pack with straps, buckles and a ripcord handle lying in grass, close view, soft light, no text.

REF 3
REF-SKY: flat 2D storybook illustration, vertical 9:16, a small plane high in a vast cloudy sky with a tiny distant figure separating from it, the green field far below, no text.

REF 4
REF-DUSK: flat 2D storybook illustration, vertical 9:16, the same empty field at dusk, the unopened pack resting in the grass in the foreground, sky deepening, no text.

VIDEO PROMPT 1 OF 6

PICTURE — what Flow builds
A wide empty field under a huge sky: one still figure lying in the grass with a bulky unopened pack beside him, seen from a respectful distance. Slow push-in.

NARRATION — generated inside this clip
"A man lies dead in the middle of an empty field. No tracks lead to him. No vehicle. No one else around."

Sound: Wind in long grass, distant birds.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 2 OF 6

PICTURE — what Flow builds
The camera sweeps the field's edge: unbroken grass in every direction, no road, no track, no vehicle — the emptiness itself becomes the evidence.

NARRATION — generated inside this clip
"Beside him: a package. Never opened — though his life depended on it opening."

Sound: Grass rustling, nothing else.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 3 OF 6

PICTURE — what Flow builds
Close on the unopened pack: straps, buckles and a ripcord handle, all intact, lying exactly as it landed. Nothing about it has been touched.

NARRATION — generated inside this clip
"Had he known it would fail to open, he would never have been in that field at all. Nothing that brought him there touched the ground."

Sound: A buckle ticking in the wind.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 4 OF 6

PICTURE — what Flow builds
Freeze on the field and the pack, perfectly still, wind moving only the grass. Leave the lower third open.

NARRATION — generated inside this clip
"What is the package? Lock your answer in the comments before the reveal."

Sound: Silence under a huge sky.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 5 OF 6

PICTURE — what Flow builds
High above the field, a tiny plane crosses the sky and a small figure separates from it, falling free — shown small and distant against the clouds.

NARRATION — generated inside this clip
"Ask how he arrived. Everything that reaches a field leaves a trace — unless it falls out of the sky."

Sound: A faint distant engine, fading.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 6 OF 6

PICTURE — what Flow builds
Back at ground level, the same field at dusk: the pack beside the figure, the sky empty now. The whole story readable in one frame.

NARRATION — generated inside this clip
"The package is his parachute. It never opened. Follow for a new riddle every day."

Sound: Evening wind, crickets beginning.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

AGENT MASTER PROMPT

Paste this whole prompt to the agent (Google Antigravity) with this book. It runs the video build end to end.

MASTER PROMPT

You are producing a 60-second vertical riddle video, 'THE UNOPENED PACKAGE'. Use the story, hints and reveal in this book as the script — do not invent a different answer. Step 1: generate the reference stills from the Reference Image Prompts page, in order, and check each against the Character & Style Lock. Step 2: build the six clips in Google Flow, one per Video Prompt page, using Frames-to-Video from the checked stills, one tiny action per clip, narration generated inside each clip using the locked voice. Step 3: assemble the clips in order 1-6, keep the question on screen until the reveal clip, captions in the series style, no dead air. Step 4: run the Edit Checklist page and fix every failure before export. Deliver a 1080x1920 MP4.

VOICE LOCK — one warm American male narrator, 30-35, calm and confident, slightly amused at the question beats, dead serious at the reveal. Same voice, same pace, every clip. The narration is generated INSIDE each Flow clip; listen-check every clip and regenerate only failures.

NARRATION SCRIPT

Six lines, about ten seconds each — sixty seconds in total. Record or generate them exactly as written.

THE THUMBNAIL

THE IDEA

The unopened pack alone in the vast empty field under a huge sky. Edit-drawn text: 'IT NEVER OPENED'.

IMAGE PROMPT

Flat 2D storybook illustration, vertical 9:16: an unopened parachute pack with straps and a ripcord lying alone in a vast empty grass field under a huge sky, no roads or people, dramatic scale, the top third of the frame left empty for title text, no text in the image.

Rules: the question, never the answer. Three words or fewer of big text, drawn in editing — generated lettering garbles. Check it at profile-picture size before posting.

EDIT CHECKLIST

Nothing posts until every line passes.

CHECK
Frame-check every beat: characters match the lock, no drift, no warped hands or faces.

CHECK
Every number and word on screen is drawn in editing and read back — generated text is never trusted.

CHECK
The question stays on screen until the reveal beat; the answer never appears early — not in a caption, not in a frame.

CHECK
Listen to the full cut: one voice throughout, no dead air, no clip where the narration went missing.

CHECK
The reveal lands in the final seconds; the last frame carries the follow prompt.

CHECK
Thumbnail checked small; title and caption lead with the question, never the answer.
