THE THREE MISLABELLED BOXES

ONE FRUIT SETTLES EVERYTHING

THE CASE IN ONE LINE
Every label is wrong. One reach into one box — and all three boxes confess.

THE COMPLETE PRODUCTION PACK — STORY · SCRIPT · NARRATION · EVERY PROMPT

WHAT'S INSIDE

One riddle, taken all the way from story to posted video. Every page does one job.

THE CASE
the story, exactly as the viewer hears it

THE QUESTION + THREE HINTS
the hook and the ladder

YOUR MOVE
the pause page — where comments are born

THE REVEAL + WHY IT WORKS
the verified answer, watertight

THE TRAP + COMMENT ENGINEERING
why brains fail it, and how the debate is seeded

CHARACTER & STYLE LOCK
the designs that never change

REFERENCE IMAGE PROMPTS
the stills to generate first

VIDEO PROMPTS 1-6
one clip per page, narration inside each

AGENT MASTER PROMPT
the one prompt that runs the build

NARRATION SCRIPT
every line, in order, with timing

THUMBNAIL
the cover frame that earns the tap

POSTING COPY
titles, caption, pinned comment

EDIT CHECKLIST
the checks before anything posts

AI — WHO DOES WHAT
every step, and whose job it is

THE CASE

Three boxes sit on a market stall. One holds only apples, one holds only oranges, and one holds a mixture of both.

The labels read “Apples”, “Oranges” and “Apples and Oranges” — and here is the stall-keeper's promise: every single label is wrong. Not one box contains what its label claims.

You may pick exactly one fruit, without looking, from exactly one box. From that one fruit, you must name the contents of all three boxes — correctly, with no guesses left over.

THE QUESTION

Which box do you pick from — and how does one fruit settle all three?

THE QUESTION + THREE HINTS

Open them one at a time. Stop the moment you have it — the last hint nearly gives it away.

THE QUESTION

Which box do you pick from — and how does one fruit settle all three?

HINT 1

Start where the wrong label gives you the most. Which box's label, being wrong, leaves it only one possible content?

HINT 2

A box labelled as a mixture cannot be a mixture. So what must it be?

HINT 3

Once one box is certain, the other two are forced — each wrong label eliminates one option, and only one arrangement survives.

YOUR MOVE

Which box do you pick from — and how does one fruit settle all three?

Decide your answer now — say it out loud or drop it in the comments — before you turn this page. No going back.

THE REVEAL

THE ANSWER

Pick from the box labelled “Apples and Oranges”. Its label is wrong, so it holds only one kind of fruit — and the fruit you draw names it.

Say you draw an apple. The “Apples and Oranges” box is the apple box. Now the box labelled “Oranges”: it cannot hold oranges (wrong label) and cannot hold apples (already placed) — so it holds the mixture. The box labelled “Apples” then holds the oranges.

Draw an orange instead and the whole chain runs in mirror image. One fruit, three certainties — because every wrong label is really a piece of information wearing a disguise.

WHY IT WORKS

The engine is elimination with a guarantee: the mixed label is the key because 'wrong' collapses it from three possibilities to one pure box. After that, each remaining wrong label has exactly one legal content left.

Notice the riddle gives you a promise (ALL labels wrong) that sounds like a handicap and is actually the entire toolkit. Certainty about errors is as powerful as certainty about facts.

THE TRAP + COMMENT ENGINEERING

THE TRAP, NAMED
Picking from the box labelled “Apples” or “Oranges” — a drawn fruit there fits two different arrangements, and one fruit cannot separate them. The obvious box is the useless box.

This riddle is built to split the comments into two camps. Seed both, then let them argue:

CAMP A SAYS
Team APPLES BOX: 'Pick from the box labelled Apples. If it is wrong, the fruit tells you what it really is — start there.'

CAMP B SAYS
Team MIXED LABEL: 'Pick from “Apples and Oranges”. Its wrong label guarantees a pure box, so one fruit identifies it and forces the rest.'

PIN THIS COMMENT
Which box do you pick from? Name the label exactly — BEFORE the reveal.

CHARACTER & STYLE LOCK

[VAULT-2D] STYLE LOCK — flat 2D storybook animation, deep-navy night palette with one lime accent, clean shapes, soft moonlight, no text inside the picture except where a prompt says so, vertical 9:16. Characters never change design between clips: generate the reference stills first, then build every clip from them.

LOCK
The boxes stay in the same left-to-right label order in every frame: Apples, Oranges, Apples and Oranges. All label words are edit-drawn over blank tags — generated labels are never trusted.

LOCK
An apple is always round and red with one green leaf; an orange is always round, orange and leafless. No other fruit appears.

LOCK
The mixed box must visibly contain both fruits whenever it is open. A pure box never shows a stray fruit of the other kind.

Never redesign a locked character mid-video. If a generation drifts, regenerate the still — never accept a near-match.

REFERENCE IMAGE PROMPTS

Generate these stills first, in this order, and check each one before any video clip is made.

REF 1
REF-STALL: flat 2D storybook illustration, vertical 9:16, a market stall with three closed cardboard boxes in a row, each with a completely blank label, baskets of apples and oranges behind, warm light, no text.

REF 2
REF-BOXES: flat 2D storybook illustration, vertical 9:16, three open boxes seen from a high angle: one full of apples, one full of oranges, one holding both mixed, warm palette, no labels or text.

REF 3
REF-KEEPER: the market stall-keeper alone on a plain warm background, flat 2D storybook style, apron and rolled sleeves, one finger raised as if making a promise, full body, no text.

REF 4
REF-FRUIT: flat 2D storybook illustration, vertical 9:16, one apple and one orange side by side on a dark wooden counter under a spotlight, no other objects, no text.

VIDEO PROMPT 1 OF 6

PICTURE — what Flow builds
A market stall with three closed boxes in a row, each carrying a blank label tag. Apples and oranges sit in baskets behind the stall. Slow push-in.

NARRATION — generated inside this clip
"Three boxes. Apples. Oranges. And a mixture of both. Every label is wrong."

Sound: Market murmur and cloth awnings flapping.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 2 OF 6

PICTURE — what Flow builds
The stall-keeper taps each blank label in turn and shakes his head solemnly. The boxes stay closed.

NARRATION — generated inside this clip
"The stall-keeper makes one promise: not one box contains what its label claims."

Sound: Three soft taps, one per box.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 3 OF 6

PICTURE — what Flow builds
A hand hovers over the three boxes, moving from one to the next without choosing, while the camera holds the full row.

NARRATION — generated inside this clip
"You may reach into exactly one box, without looking, and take exactly one fruit."

Sound: A hand brushing cardboard.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 4 OF 6

PICTURE — what Flow builds
Freeze on the three closed boxes, perfectly still, labels blank and centre frame. Leave the lower third open for the pause.

NARRATION — generated inside this clip
"That single fruit must identify all three boxes. Which box do you choose? Lock it in the comments."

Sound: Silence over distant market sounds.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 5 OF 6

PICTURE — what Flow builds
The hand reaches into the middle box and lifts out one apple. Beside it, the other two boxes open in quick succession to show the forced arrangement: mixture, then oranges.

NARRATION — generated inside this clip
"Choose the box labelled as the mixture. Because its label is wrong, it cannot be mixed — it holds one fruit only."

Sound: Cardboard opening, fruit rolling softly.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 6 OF 6

PICTURE — what Flow builds
All three boxes stand open with their true contents visible and the stall-keeper applauding the result. Warm market light.

NARRATION — generated inside this clip
"The drawn fruit names that box, and the two wrong labels force the rest. Follow for a new riddle every day."

Sound: A small market cheer.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

AGENT MASTER PROMPT

Paste this whole prompt to the agent (Google Antigravity) with this book. It runs the video build end to end.

MASTER PROMPT

You are producing a 60-second vertical riddle video, 'THE THREE MISLABELLED BOXES'. Use the story, hints and reveal in this book as the script — do not invent a different answer. Step 1: generate the reference stills from the Reference Image Prompts page, in order, and check each against the Character & Style Lock. Step 2: build the six clips in Google Flow, one per Video Prompt page, using Frames-to-Video from the checked stills, one tiny action per clip, narration generated inside each clip using the locked voice. Step 3: assemble the clips in order 1-6, keep the question on screen until the reveal clip, captions in the series style, no dead air. Step 4: run the Edit Checklist page and fix every failure before export. Deliver a 1080x1920 MP4.

VOICE LOCK — one warm American male narrator, 30-35, calm and confident, slightly amused at the question beats, dead serious at the reveal. Same voice, same pace, every clip. The narration is generated INSIDE each Flow clip; listen-check every clip and regenerate only failures.

NARRATION SCRIPT

Six lines, about ten seconds each — sixty seconds in total. Record or generate them exactly as written.

LINE 1 · 0:00
"Three boxes. Apples. Oranges. And a mixture of both. Every label is wrong."

LINE 2 · 0:10
"The stall-keeper makes one promise: not one box contains what its label claims."

LINE 3 · 0:20
"You may reach into exactly one box, without looking, and take exactly one fruit."

LINE 4 · 0:30
"That single fruit must identify all three boxes. Which box do you choose? Lock it in the comments."

LINE 5 · 0:40
"Choose the box labelled as the mixture. Because its label is wrong, it cannot be mixed — it holds one fruit only."

LINE 6 · 0:50
"The drawn fruit names that box, and the two wrong labels force the rest. Follow for a new riddle every day."

VOICE LOCK — one warm American male narrator, 30-35, calm and confident, slightly amused at the question beats, dead serious at the reveal. Same voice, same pace, every clip. The narration is generated INSIDE each Flow clip; listen-check every clip and regenerate only failures.

THE THUMBNAIL

THE IDEA

Three boxes with bold labels and one hand reaching for the mixed-label box. Edit-drawn text: 'EVERY LABEL IS WRONG'.

IMAGE PROMPT

Flat 2D storybook illustration, vertical 9:16: three closed boxes with blank labels on a market stall, a hand reaching toward the middle box, apples and oranges in baskets behind, warm light, the top third left empty for title text, no text in the image.

Rules: the question, never the answer. Three words or fewer of big text, drawn in editing — generated lettering garbles. Check it at profile-picture size before posting.

POSTING COPY

TITLE OPTIONS — pick one:

TITLE
Every Label Is Wrong — One Fruit Solves All Three Boxes

TITLE
The Mislabelled Boxes Riddle

TITLE
Pick One Fruit. Name Every Box.

CAPTION — first line is the question
Three boxes, three labels — and every label is wrong. You may draw one fruit from one box. Which box, and why? Comment BEFORE the reveal. New riddle every day.

PINNED COMMENT
Which box do you pick from? Name the label exactly — BEFORE the reveal.

Hashtags: #riddle #logicpuzzle #brainteaser #fruitpuzzle #puzzle #dailypuzzle

EDIT CHECKLIST

Nothing posts until every line passes.

CHECK
Frame-check every beat: characters match the lock, no drift, no warped hands or faces.

CHECK
Every number and word on screen is drawn in editing and read back — generated text is never trusted.

CHECK
The question stays on screen until the reveal beat; the answer never appears early — not in a caption, not in a frame.

CHECK
Listen to the full cut: one voice throughout, no dead air, no clip where the narration went missing.

CHECK
The reveal lands in the final seconds; the last frame carries the follow prompt.

CHECK
Thumbnail checked small; title and caption lead with the question, never the answer.

AI — WHO DOES WHAT

Every step of this book's video, and whose job it is.

THE AGENT (Antigravity)
Reads this book, plans the shots, writes the generation queue, assembles the edit, runs the checklist.

GOOGLE FLOW
Generates the reference stills, then the six clips with the narration inside each clip.

THE EDITOR (you, or the agent)
Draws all on-screen text and numbers, sets captions, checks every frame and every second of audio.

THE CHANNEL
Posts with the title, caption and pinned comment from the Posting Copy page — question first, answer never.

Part 2 idea: Turn it into a live vote: viewers choose the box by poll, one real fruit is drawn on camera, and Part 2 follows the elimination chain from the fruit that actually appears.

ABOUT THIS BOOK

One riddle, taken seriously: a verified answer, a locked visual style, and the complete route from page to posted video — script, narration, image prompts, video prompts, thumbnail and posting copy, all in one pack.

OWNERSHIP
This book — its text, structure and design — is owned by OTT TITANS. Reading or downloading it grants you the right to enjoy it and to produce your own version of the riddle video on your own channels. It never transfers ownership of the book.

The riddle itself is a classic that has travelled for years. This pack — its words, structure and production system — is the original work.

CASE CLOSED

Pick from the box labelled “Apples and Oranges”. Its label is wrong, so it holds only one kind of fruit – and the fruit you draw names it.

A new riddle lands every day. Solve the next one before the reveal.
