EIGHT BALLS, ONE LIGHT

TWO WEIGHINGS. NO MORE.

THE CASE IN ONE LINE
Eight balls, one secretly lighter — and the scale may speak only twice.

THE COMPLETE PRODUCTION PACK — STORY · SCRIPT · NARRATION · EVERY PROMPT

WHAT'S INSIDE

One riddle, taken all the way from story to posted video. Every page does one job.

THE CASE
the story, exactly as the viewer hears it

THE QUESTION + THREE HINTS
the hook and the ladder

YOUR MOVE
the pause page — where comments are born

AI — WHO DOES WHAT
every step, and whose job it is

THE CASE

Eight balls lie in a row, identical to the eye and almost identical in the hand. Seven weigh exactly the same. One is slightly lighter than the rest.

Beside them stands a balance scale: two pans, no numbers. It can only tip left, tip right, or stay level.

You may use the scale exactly twice. Then you must point at the light ball — and be right, guaranteed, every time.

THE QUESTION

How do two weighings guarantee the light ball?

THE QUESTION + THREE HINTS

Open them one at a time. Stop the moment you have it — the last hint nearly gives it away.

THE QUESTION

How do two weighings guarantee the light ball?

HINT 1

Three outcomes per weighing, two weighings: nine possible result-strings for eight balls. The arithmetic allows it — barely.

HINT 2

Split the balls three ways, not two. What never touches the scale is information too.

HINT 3

Design the first weighing so that every outcome — left, right, level — leaves you at most three suspects, with a plan for each.

YOUR MOVE

How do two weighings guarantee the light ball?

Decide your answer now — say it out loud or drop it in the comments — before you turn this page. No going back.

THE REVEAL

THE ANSWER

Weigh 3 against 3, leaving 2 aside. Every outcome leaves a group you can finish with one more weighing.

If one side rises, the light ball is among those three: weigh one against another — if one rises, that's it; if they balance, the third ball is the light one. If the first weighing balances, the light ball is one of the two set aside: weigh those two against each other and the side that rises holds it.

Count the design: the first weighing sorts eight balls into a group of three, a group of three, or a pair — and each group has a one-weighing finish. Two weighings, no luck involved.

WHY IT WORKS

This is the twelve-coin machine in miniature: outcomes are a budget, and 3 × 3 = 9 outcomes cover 8 suspects. The craft is spending the first weighing so no outcome bankrupts you.

Its big sibling needs heavy-or-light bookkeeping; here the direction is known (lighter), which is exactly why two weighings suffice for eight.

THE TRAP + COMMENT ENGINEERING

THE TRAP, NAMED
Weighing 4 against 4 — the natural move — spends everything on one bit of information and leaves four suspects with one weighing. Symmetry feels fair; it is just wasteful.

This riddle is built to split the comments into two camps. Seed both, then let them argue:

CAMP A SAYS
Team FOUR-FOUR: 'Weigh four against four first. Fair split, maximum balls tested — then chase the light side.'

CAMP B SAYS
Team THREE-THREE-TWO: 'Three against three, two aside. Every outcome leaves a group that one weighing can finish.'

PIN THIS COMMENT
Your first split — 4v4 or 3v3+2? Lock it in BEFORE the reveal.

CHARACTER & STYLE LOCK

[VAULT-2D] STYLE LOCK — flat 2D storybook animation, deep-navy night palette with one lime accent, clean shapes, soft moonlight, no text inside the picture except where a prompt says so, vertical 9:16. Characters never change design between clips: generate the reference stills first, then build every clip from them.

LOCK
All eight balls are identical pale spheres with no stamp, number or colour difference. The light ball is never visually marked in a generated frame.

LOCK
The brass scale and dark table never change. Group sizes on screen must match the narration exactly: three, three and two in the solution sequence.

LOCK
Any numbers, arrows or branch labels are drawn in editing. The generated scale carries no dial or readable marks.

Never redesign a locked character mid-video. If a generation drifts, regenerate the still — never accept a near-match.

REFERENCE IMAGE PROMPTS

Generate these stills first, in this order, and check each one before any video clip is made.

REF 1
REF-BALLS: flat 2D storybook illustration, vertical 9:16, top-down dark table with eight identical pale balls in a neat row, soft lamplight, no markings, no text.

REF 2
REF-SCALE: a brass balance scale alone on a plain deep-navy background, flat 2D storybook style, two empty round pans hanging level, centred, no text.

REF 3
REF-GROUPS: flat 2D storybook illustration, vertical 9:16, top-down view of the eight balls arranged as three, three and two with clear space between the groups on a dark table, no text.

REF 4
REF-LIGHTBALL: flat 2D storybook illustration, vertical 9:16, one pale ball alone in a ring of warm light on a dark table, seven matching balls dim in the background, no text.

VIDEO PROMPT 1 OF 6

PICTURE — what Flow builds
Top-down view of eight identical pale balls in a neat row on a dark table, with a brass balance scale beside them. Slow push-in.

NARRATION — generated inside this clip
"Eight balls. Seven weigh exactly the same. One is slightly lighter."

Sound: Balls clicking softly on wood.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 2 OF 6

PICTURE — what Flow builds
Close on the empty scale as its pans sway and settle level. A hand hovers over the balls without selecting any.

NARRATION — generated inside this clip
"A balance scale can tell you left, right or level — but you may use it only twice."

Sound: The scale's faint metallic creak.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 3 OF 6

PICTURE — what Flow builds
Four balls crash onto each pan in a hurried split; the scale tips hard and the remaining possibilities spill across the table. The wasteful method, failing.

NARRATION — generated inside this clip
"Most people split the balls four against four. It feels fair. It also wastes the answer."

Sound: A clatter as the pans tip.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 4 OF 6

PICTURE — what Flow builds
Freeze on the eight balls and level scale, perfectly still. Leave the lower third open for the pause.

NARRATION — generated inside this clip
"What is your first split? Lock it in the comments before the reveal."

Sound: Silence, one clock tick.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 5 OF 6

PICTURE — what Flow builds
The balls glide into a three-three-two arrangement. Three stand under the left pan, three under the right pan and two wait apart on the table.

NARRATION — generated inside this clip
"Go three against three, with two aside. If a side rises, the light ball hides in that three."

Sound: Three groups sliding into place.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 6 OF 6

PICTURE — what Flow builds
One ball sits alone in a ring of light while the scale rests level behind it and the other seven balls dim. Calm final frame.

NARRATION — generated inside this clip
"Finish inside the three — or, if the scale stayed level, weigh the pair. Two weighings, guaranteed. Follow for daily riddles."

Sound: One ball set down — final.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

AGENT MASTER PROMPT

Paste this whole prompt to the agent (Google Antigravity) with this book. It runs the video build end to end.

MASTER PROMPT

You are producing a 60-second vertical riddle video, 'EIGHT BALLS, ONE LIGHT'. Use the story, hints and reveal in this book as the script — do not invent a different answer. Step 1: generate the reference stills from the Reference Image Prompts page, in order, and check each against the Character & Style Lock. Step 2: build the six clips in Google Flow, one per Video Prompt page, using Frames-to-Video from the checked stills, one tiny action per clip, narration generated inside each clip using the locked voice. Step 3: assemble the clips in order 1-6, keep the question on screen until the reveal clip, captions in the series style, no dead air. Step 4: run the Edit Checklist page and fix every failure before export. Deliver a 1080x1920 MP4.

VOICE LOCK — one warm American male narrator, 30-35, calm and confident, slightly amused at the question beats, dead serious at the reveal. Same voice, same pace, every clip. The narration is generated INSIDE each Flow clip; listen-check every clip and regenerate only failures.

NARRATION SCRIPT

Six lines, about ten seconds each — sixty seconds in total. Record or generate them exactly as written.

LINE 1 · 0:00
"Eight balls. Seven weigh exactly the same. One is slightly lighter."

LINE 2 · 0:10
"A balance scale can tell you left, right or level — but you may use it only twice."

LINE 3 · 0:20
"Most people split the balls four against four. It feels fair. It also wastes the answer."

LINE 4 · 0:30
"What is your first split? Lock it in the comments before the reveal."

LINE 5 · 0:40
"Go three against three, with two aside. If a side rises, the light ball hides in that three."

LINE 6 · 0:50
"Finish inside the three — or, if the scale stayed level, weigh the pair. Two weighings, guaranteed. Follow for daily riddles."

VOICE LOCK — one warm American male narrator, 30-35, calm and confident, slightly amused at the question beats, dead serious at the reveal. Same voice, same pace, every clip. The narration is generated INSIDE each Flow clip; listen-check every clip and regenerate only failures.

THE THUMBNAIL

THE IDEA

The scale loaded three against three, with two balls waiting apart. Edit-drawn text: 'ONLY 2 WEIGHINGS'.

IMAGE PROMPT

Flat 2D storybook illustration, vertical 9:16: a brass balance scale with three pale balls in each pan and two matching balls waiting on a dark table beside it, dramatic lamplight, the top third left dark and empty for title text, no text in the image.

Rules: the question, never the answer. Three words or fewer of big text, drawn in editing — generated lettering garbles. Check it at profile-picture size before posting.

POSTING COPY

TITLE OPTIONS — pick one:

TITLE
8 Balls, 1 Light, Only 2 Weighings

TITLE
Find the Light Ball in Two Tries — Guaranteed

TITLE
The Weighing Puzzle Most People Split Wrong

CAPTION — first line is the question
Eight balls, one lighter, two uses of the scale. What is your first split? Comment BEFORE the reveal. New riddle every day.

PINNED COMMENT
Your first split — 4v4 or 3v3+2? Lock it in BEFORE the reveal.

EDIT CHECKLIST

Nothing posts until every line passes.

CHECK
Frame-check every beat: characters match the lock, no drift, no warped hands or faces.

CHECK
Every number and word on screen is drawn in editing and read back — generated text is never trusted.

CHECK
The question stays on screen until the reveal beat; the answer never appears early — not in a caption, not in a frame.

CHECK
Listen to the full cut: one voice throughout, no dead air, no clip where the narration went missing.

CHECK
The reveal lands in the final seconds; the last frame carries the follow prompt.

CHECK
Thumbnail checked small; title and caption lead with the question, never the answer.

AI — WHO DOES WHAT

Every step of this book's video, and whose job it is.

THE AGENT (Antigravity)
Reads this book, plans the shots, writes the generation queue, assembles the edit, runs the checklist.

GOOGLE FLOW
Generates the reference stills, then the six clips with the narration inside each clip.

THE EDITOR (you, or the agent)
Draws all on-screen text and numbers, sets captions, checks every frame and every second of audio.

THE CHANNEL
Posts with the title, caption and pinned comment from the Posting Copy page — question first, answer never.

Part 2 idea: The perfect sequel: nine balls, one light, still only two weighings — because three groups of three spend the nine-outcome budget exactly.

ABOUT THIS BOOK

One riddle, taken seriously: a verified answer, a locked visual style, and the complete route from page to posted video — script, narration, image prompts, video prompts, thumbnail and posting copy, all in one pack.

OWNERSHIP
This book — its text, structure and design — is owned by OTT TITANS. Reading or downloading it grants you the right to enjoy it and to produce your own version of the riddle video on your own channels. It never transfers ownership of the book.

The riddle itself is a classic that has travelled for years. This pack — its words, structure and production system — is the original work.

CASE CLOSED

Weigh 3 against 3, leaving 2 aside. Every outcome leaves a group you can finish with one more weighing.

A new riddle lands every day. Solve the next one before the reveal.

— END OF BOOK —
