THE TWO JUGS

MEASURE EXACTLY FOUR LITRES

THE CASE IN ONE LINE
A 3-litre jug, a 5-litre jug, unlimited water — and not a single mark on either jug.

THE COMPLETE PRODUCTION PACK — STORY · SCRIPT · NARRATION · EVERY PROMPT

WHAT'S INSIDE

One riddle, taken all the way from story to posted video. Every page does one job.

THE CASE
the story, exactly as the viewer hears it

THE QUESTION + THREE HINTS
the hook and the ladder

YOUR MOVE
the pause page — where comments are born

THE REVEAL + WHY IT WORKS
the verified answer, watertight

THE TRAP + COMMENT ENGINEERING
why brains fail it, and how the debate is seeded

CHARACTER & STYLE LOCK
the designs that never change

REFERENCE IMAGE PROMPTS
the stills to generate first

VIDEO PROMPTS 1-6
one clip per page, narration inside each

AGENT MASTER PROMPT
the one prompt that runs the build

NARRATION SCRIPT
every line, in order, with timing

THUMBNAIL
the cover frame that earns the tap

POSTING COPY

EDIT CHECKLIST
the checks before anything posts

AI — WHO DOES WHAT
every step, and whose job it is

THE CASE

At a well stand two jugs: one holds exactly 3 litres, the other exactly 5. There are no markings on either — a jug is only ever certainly full, or certainly empty.

The well gives unlimited water, and you may fill, empty and pour between the jugs as often as you like.

Your task sounds insultingly simple: finish with exactly 4 litres of water standing in the 5-litre jug.

THE QUESTION

How do you measure exactly 4 litres with a 3-litre and a 5-litre jug?

THE QUESTION + THREE HINTS

Open them one at a time. Stop the moment you have it — the last hint nearly gives it away.

THE QUESTION

How do you measure exactly 4 litres with a 3-litre and a 5-litre jug?

HINT 1

You cannot measure 4 directly. Manufacture it: make a known leftover, then a known space.

HINT 2

Fill the big jug and pour into the small one. What remains in the big jug is a number you can trust.

HINT 3

At the end, the small jug must be missing exactly 1 litre of space. Engineer that missing litre.

YOUR MOVE

How do you measure exactly 4 litres with a 3-litre and a 5-litre jug?

Decide your answer now — say it out loud or drop it in the comments — before you turn this page. No going back.

THE REVEAL

THE ANSWER

Fill the 5, pour into the 3 — 2 remain. Move the 2 into the empty 3, refill the 5, and top up the 3: it takes exactly 1, leaving 4.

Step by step: fill the 5-litre jug; pour into the 3-litre jug until it is full — exactly 2 litres remain in the big jug. Empty the small jug; pour those 2 litres into it. Now the small jug has room for exactly 1 more litre.

Fill the 5-litre jug again and pour into the small jug until the small jug is full. Exactly 1 litre leaves the big jug — so exactly 4 litres remain standing in it. Done, with no mark ever read.

WHY IT WORKS

Every quantity in the solution is forced by a hard edge: a full jug, an empty jug, a jug that can accept no more. 5 − 3 = 2 gives a trusted leftover; 3 − 2 = 1 gives a trusted space; 5 − 1 = 4 is the target wearing work clothes.

The general law: with jugs of 3 and 5 you can build any whole number of litres, because 3 and 5 share no common factor. The puzzle is arithmetic you can pour.

THE TRAP + COMMENT ENGINEERING

THE TRAP, NAMED
Trying to judge 'about four' by eye, or hunting for a halfway trick. The jugs give you certainty only at their edges — the solution lives entirely on the edges.

This riddle is built to split the comments into two camps. Seed both, then let them argue:

CAMP A SAYS
Team EYEBALL: 'Fill the big jug, pour off about a litre, done. Four litres is four litres — why complicate it?'

CAMP B SAYS
Team EDGES: 'No eyeballing. Build a trusted 2, then a trusted 1-litre space. 5 minus 1 is a proven 4.'

PIN THIS COMMENT
First move — FILL THE 5 or FILL THE 3? Lock your full sequence BEFORE the reveal.

CHARACTER & STYLE LOCK

[VAULT-2D] STYLE LOCK — flat 2D storybook animation, deep-navy night palette with one lime accent, clean shapes, soft moonlight, no text inside the picture except where a prompt says so, vertical 9:16. Characters never change design between clips: generate the reference stills first, then build every clip from them.

LOCK
The size relationship never changes: the tall jug is always the 5-litre, the short jug always the 3-litre. Neither jug ever carries a mark, line or number in a generated frame.

LOCK
All litre figures and step labels are drawn in editing. Water levels shown in the solution sequence must match the narration step being spoken.

LOCK
The setting is always the same stone well and morning light. No taps, bottles, cups or extra containers appear.

Never redesign a locked character mid-video. If a generation drifts, regenerate the still — never accept a near-match.

REFERENCE IMAGE PROMPTS

Generate these stills first, in this order, and check each one before any video clip is made.

REF 1
REF-JUGS: flat 2D storybook illustration, vertical 9:16, two plain unmarked clay jugs on a stone well rim — one tall, one clearly smaller — morning light, no people, no markings or text.

REF 2
REF-WELL: flat 2D storybook illustration, vertical 9:16, a round stone well with a wooden bucket and rope, the two plain jugs waiting beside it, soft daylight, no text.

REF 3
REF-POUR: flat 2D storybook illustration, vertical 9:16, the tall jug pouring water into the smaller jug on a stone surface, both jugs plain and unmarked, clean composition, no text.

REF 4
REF-FINAL: flat 2D storybook illustration, vertical 9:16, the tall jug standing in a ring of warm light beside the full smaller jug at a well, calm final composition, no text.

VIDEO PROMPT 1 OF 6

PICTURE — what Flow builds
A stone well in morning light with two plain jugs on its rim: one tall five-litre jug and one smaller three-litre jug. Slow push-in.

NARRATION — generated inside this clip
"A five-litre jug. A three-litre jug. Unlimited water — and no markings on either jug."

Sound: Well water echoing, a bucket chain.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 2 OF 6

PICTURE — what Flow builds
Hands fill the tall jug at the well and pour into the small jug until it brims. The water left in the tall jug sits visibly lower.

NARRATION — generated inside this clip
"You may fill, empty and pour as often as you like. A jug is only ever certainly full or certainly empty."

Sound: Pouring water, a jug brimming.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 3 OF 6

PICTURE — what Flow builds
A hand lifts the tall jug and tilts it toward the camera as if judging the level by eye, then sets it down unconvinced. The guesswork method fails quietly.

NARRATION — generated inside this clip
"Finish with exactly four litres standing in the big jug. Not roughly four. Exactly four, proven."

Sound: A doubtful hum, water settling.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 4 OF 6

PICTURE — what Flow builds
Freeze on both jugs beside the well, perfectly still, water levels hidden by the framing. Leave the lower third open.

NARRATION — generated inside this clip
"What is your first move? Lock your sequence in the comments before the reveal."

Sound: Silence, one drip from the well.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 5 OF 6

PICTURE — what Flow builds
A clean sequence in one frame flow: the small jug empties, the leftover water pours into it, and the tall jug is filled again at the well.

NARRATION — generated inside this clip
"Fill the five and pour into the three. Two trusted litres remain. Empty the small jug and park those two inside it."

Sound: Emptying, pouring, filling — three clear sounds.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 6 OF 6

PICTURE — what Flow builds
The tall jug stands alone in a ring of light with its final level clear; the small jug sits full beside it. Calm closing shot.

NARRATION — generated inside this clip
"Refill the five and top up the small jug. It has room for exactly one — leaving four. Follow for a new riddle every day."

Sound: One final drip — done.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

AGENT MASTER PROMPT

Paste this whole prompt to the agent (Google Antigravity) with this book. It runs the video build end to end.

MASTER PROMPT

You are producing a 60-second vertical riddle video, 'THE TWO JUGS'. Use the story, hints and reveal in this book as the script — do not invent a different answer. Step 1: generate the reference stills from the Reference Image Prompts page, in order, and check each against the Character & Style Lock. Step 2: build the six clips in Google Flow, one per Video Prompt page, using Frames-to-Video from the checked stills, one tiny action per clip, narration generated inside each clip using the locked voice. Step 3: assemble the clips in order 1-6, keep the question on screen until the reveal clip, captions in the series style, no dead air. Step 4: run the Edit Checklist page and fix every failure before export. Deliver a 1080x1920 MP4.

VOICE LOCK — one warm American male narrator, 30-35, calm and confident, slightly amused at the question beats, dead serious at the reveal. Same voice, same pace, every clip. The narration is generated INSIDE each Flow clip; listen-check every clip and regenerate only failures.

NARRATION SCRIPT

Six lines, about ten seconds each — sixty seconds in total. Record or generate them exactly as written.

LINE 1 · 0:00
"A five-litre jug. A three-litre jug. Unlimited water — and no markings on either jug."

LINE 2 · 0:10
"You may fill, empty and pour as often as you like. A jug is only ever certainly full or certainly empty."

LINE 3 · 0:20
"Finish with exactly four litres standing in the big jug. Not roughly four. Exactly four, proven."

LINE 4 · 0:30
"What is your first move? Lock your sequence in the comments before the reveal."

LINE 5 · 0:40
"Fill the five and pour into the three. Two trusted litres remain. Empty the small jug and park those two inside it."

LINE 6 · 0:50
"Refill the five and top up the small jug. It has room for exactly one — leaving four. Follow for a new riddle every day."

VOICE LOCK — one warm American male narrator, 30-35, calm and confident, slightly amused at the question beats, dead serious at the reveal. Same voice, same pace, every clip. The narration is generated INSIDE each Flow clip; listen-check every clip and regenerate only failures.

THE THUMBNAIL

THE IDEA

The two jugs at the well, the big one ringed in lime. Edit-drawn text: 'MEASURE EXACTLY 4L'.

IMAGE PROMPT

Flat 2D storybook illustration, vertical 9:16: one tall plain jug and one smaller plain jug on the rim of a stone well in morning light, both completely unmarked, water sparkling below, the top third left empty for title text, no text in the image.

Rules: the question, never the answer. Three words or fewer of big text, drawn in editing — generated lettering garbles. Check it at profile-picture size before posting.

POSTING COPY

TITLE OPTIONS — pick one:

TITLE
Measure Exactly 4 Litres With a 3L and 5L Jug

TITLE
The Two Jugs Puzzle (No Markings Allowed)

TITLE
No Marks, No Guessing — Exactly Four Litres

CAPTION — first line is the question
A 3-litre jug, a 5-litre jug, unlimited water, zero markings. End with exactly 4 litres in the big jug. Post your sequence BEFORE the reveal. New riddle every day.

PINNED COMMENT
First move — FILL THE 5 or FILL THE 3? Lock your full sequence BEFORE the reveal.

Hashtags: #riddle #logicpuzzle #brainteaser #waterjug #mathspuzzle #puzzle #dailypuzzle

EDIT CHECKLIST

Nothing posts until every line passes.

CHECK
Frame-check every beat: characters match the lock, no drift, no warped hands or faces.

CHECK
Every number and word on screen is drawn in editing and read back — generated text is never trusted.

CHECK
The question stays on screen until the reveal beat; the answer never appears early — not in a caption, not in a frame.

CHECK
Listen to the full cut: one voice throughout, no dead air, no clip where the narration went missing.

CHECK
The reveal lands in the final seconds; the last frame carries the follow prompt.

CHECK
Thumbnail checked small; title and caption lead with the question, never the answer.

AI — WHO DOES WHAT

Every step of this book's video, and whose job it is.

THE AGENT (Antigravity)
Reads this book, plans the shots, writes the generation queue, assembles the edit, runs the checklist.

GOOGLE FLOW
Generates the reference stills, then the six clips with the narration inside each clip.

THE EDITOR (you, or the agent)
Draws all on-screen text and numbers, sets captions, checks every frame and every second of audio.

THE CHANNEL
Posts with the title, caption and pinned comment from the Posting Copy page — question first, answer never.

Part 2 idea: The one-litre challenge with the same two jugs: fill the 3, pour into the 5, fill the 3 again and top up the 5 — the litre left behind is the sequel's whole answer.

ABOUT THIS BOOK

One riddle, taken seriously: a verified answer, a locked visual style, and the complete route from page to posted video — script, narration, image prompts, video prompts, thumbnail and posting copy, all in one pack.

OWNERSHIP
This book — its text, structure and design — is owned by OTT TITANS. Reading or downloading it grants you the right to enjoy it and to produce your own version of the riddle video on your own channels. It never transfers ownership of the book.

The riddle itself is a classic that has travelled for years. This pack — its words, structure and production system — is the original work.

CASE CLOSED

Fill the 5, pour into the 3 – 2 remain. Move the 2 into the empty 3, refill the 5, and top up the 3: it takes exactly 1, leaving 4.

A new riddle lands every day. Solve the next one before the reveal.

– END OF BOOK –
