THREE SWITCHES, ONE BULB

ONE VISIT. NAME EVERY SWITCH.

THE CASE IN ONE LINE

Three switches, one hidden bulb, one trip into the room — and the bulb keeps two kinds of evidence.

THE COMPLETE PRODUCTION PACK — STORY · SCRIPT · NARRATION · EVERY PROMPT

WHAT'S INSIDE

One riddle, taken all the way from story to posted video. Every page does one job.

THE CASE
the story, exactly as the viewer hears it

THE QUESTION + THREE HINTS
the hook and the ladder

YOUR MOVE
the pause page — where comments are born

THE REVEAL + WHY IT WORKS
the verified answer, watertight

THE TRAP + COMMENT ENGINEERING
why brains fail it, and how the debate is seeded

CHARACTER & STYLE LOCK
the designs that never change

REFERENCE IMAGE PROMPTS
the stills to generate first

VIDEO PROMPTS 1-6
one clip per page, narration inside each

AGENT MASTER PROMPT
the one prompt that runs the build

NARRATION SCRIPT
every line, in order, with timing

THUMBNAIL
the cover frame that earns the tap

POSTING COPY
titles, caption, pinned comment

EDIT CHECKLIST
the checks before anything posts

AI — WHO DOES WHAT
every step, and whose job it is

THE CASE

A closed room contains a single light bulb. You cannot see into the room from outside.

Outside stand three switches. Exactly one of them controls the bulb. The other two do nothing at all — they are wired to nothing.

You may flip the switches however you like, for as long as you like. But you may enter the room only once. After that single visit, you must name — correctly — which switch controls the bulb.

THE QUESTION

How can one visit identify the switch with certainty?

THE QUESTION + THREE HINTS

Open them one at a time. Stop the moment you have it — the last hint nearly gives it away.

THE QUESTION

How can one visit identify the switch with certainty?

HINT 1

Light is not the only thing a bulb produces. A bulb that has been on carries a second, slower signal.

HINT 2

Give the first switch time — real time, several minutes — before you touch anything else.

HINT 3

Plan for three outcomes, not two: lit, dark-but-something, dark-and-nothing. Each must point to a different switch.

YOUR MOVE

How can one visit identify the switch with certainty?

Decide your answer now — say it out loud or drop it in the comments — before you turn this page. No going back.

THE REVEAL

THE ANSWER

Switch 1 on for several minutes, then off. Switch 2 on. Enter: lit means 2; dark but warm means 1; dark and cold means 3.

Turn the first switch on and leave it on for several minutes — long enough for the bulb, if it is the connected one, to grow warm. Then turn it off, turn the second switch on, and walk in.

If the bulb is lit, the second switch controls it. If it is dark but warm to the touch, the first switch had it burning until moments ago. If it is dark and cold, neither of those switches ever lit it — so the third switch is the one. One visit, three outcomes, no ambiguity.

WHY IT WORKS

The puzzle's surface offers a binary signal — on or off — which can separate at most two switches. The solution smuggles in a second channel: heat, the bulb's memory of having been on.

Time is the extra ingredient: the waiting is what charges the second channel. Most solvers flip switches in patterns and never think of simply letting one cook.

THE TRAP + COMMENT ENGINEERING

THE TRAP, NAMED
Treating the bulb as a yes/no lamp. With light alone, one visit can test only one switch — the riddle is unsolvable until you notice the bulb remembers.

This riddle is built to split the comments into two camps. Seed both, then let them argue:

CAMP A SAYS
Team LIGHT ONLY: 'One visit can only test whether the bulb is on. Flip one switch, walk in, and you've spent your visit on a coin toss.'

CAMP B SAYS
Team HEAT: 'The bulb remembers. Lit, warm or cold — three outcomes for three switches. The wait is the method.'

PIN THIS COMMENT
Your method in one line BEFORE the reveal: what do you do with the switches, and when do you walk in?

CHARACTER & STYLE LOCK

[VAULT-2D] STYLE LOCK — flat 2D storybook animation, deep-navy night palette with one lime accent, clean shapes, soft moonlight, no text inside the picture except where a prompt says so, vertical 9:16. Characters never change design between clips: generate the reference stills first, then build every clip from them.

LOCK
The switches are always three identical toggles in a fixed left-to-right row. Their numbers are drawn in editing; no generated frame ever labels them.

LOCK
The bulb is always the same frosted bulb in the same ceiling rose. Heat is shown only by the hovering hand and a faint warmth in the glass — never by a thermometer, steam or a second bulb.

LOCK
The waiting beat is real: the first switch must be shown on for a long, patient stretch before the visit. Cutting the wait breaks the logic on screen.

Never redesign a locked character mid-video. If a generation drifts, regenerate the still — never accept a near-match.

REFERENCE IMAGE PROMPTS

Generate these stills first, in this order, and check each one before any video clip is made.

REF 1
REF-PANEL: flat 2D storybook illustration, vertical 9:16, a hallway wall with a panel of three identical plain switches in a row and a closed door at the end of the hall, moody light, no labels or text.

REF 2
REF-BULB: a single frosted light bulb alone on a plain deep-navy background, flat 2D storybook style, unlit, centred, no socket details beyond a simple ceiling rose, no text.

REF 3
REF-ROOM: flat 2D storybook illustration, vertical 9:16, a small bare room with one ceiling bulb and a single chair, door closed, deep navy palette, no people, no text.

REF 4
REF-WARM: flat 2D storybook illustration, vertical 9:16, close view of a dark unlit bulb with a faint warm glow in its glass and a hand hovering just beside it, no text.

VIDEO PROMPT 1 OF 6

PICTURE — what Flow builds
A hallway with a closed door at the end. On the wall beside the camera, a panel of three plain switches in a row. Slow push toward the door.

NARRATION — generated inside this clip
"A closed room holds one light bulb. You cannot see inside. Outside stand three switches — and only one of them works."

Sound: A hallway hum, a distant door.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 2 OF 6

PICTURE — what Flow builds
A hand flips the three switches in quick random patterns, faster and faster, then stops — defeated by its own cleverness.

NARRATION — generated inside this clip
"Flip the switches however you like, for as long as you like. But you may walk into that room exactly once."

Sound: Click, click, click — too many clicks.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 3 OF 6

PICTURE — what Flow builds
The first switch clicks on. The hallway holds still while a wall clock's hands crawl (figures drawn in editing); patience becomes the visible action.

NARRATION — generated inside this clip
"After one visit, you must name the switch. Light alone gives you two answers — on or off — for three suspects."

Sound: One click, then a long ticking quiet.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 4 OF 6

PICTURE — what Flow builds
Freeze on the switch panel, first switch now off and second on, perfectly still. Leave the lower third open for the pause.

NARRATION — generated inside this clip
"What extra evidence can a bulb give you? Lock your method in the comments."

Sound: Silence at the switch panel.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 5 OF 6

PICTURE — what Flow builds
Inside the room at last: three quick outcome panels — the bulb glowing, the bulb dark with a hand hovering near its warmth, the bulb dark and cold under a grey light.

NARRATION — generated inside this clip
"Turn the first switch on and leave it on. Let the bulb cook. Then switch it off, turn the second on, and walk in."

Sound: Three soft tones, one per outcome.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 6 OF 6

PICTURE — what Flow builds
The hand touches the warm dark bulb and points back toward the door with certainty. The room settles into calm light.

NARRATION — generated inside this clip
"Lit means the second. Dark but warm means the first. Dark and cold means the third. Follow for a new riddle every day."

Sound: A satisfied click — case closed.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

AGENT MASTER PROMPT

Paste this whole prompt to the agent (Google Antigravity) with this book. It runs the video build end to end.

MASTER PROMPT

You are producing a 60-second vertical riddle video, 'THREE SWITCHES, ONE BULB'. Use the story, hints and reveal in this book as the script — do not invent a different answer. Step 1: generate the reference stills from the Reference Image Prompts page, in order, and check each against the Character & Style Lock. Step 2: build the six clips in Google Flow, one per Video Prompt page, using Frames-to-Video from the checked stills, one tiny action per clip, narration generated inside each clip using the locked voice. Step 3: assemble the clips in order 1-6, keep the question on screen until the reveal clip, captions in the series style, no dead air. Step 4: run the Edit Checklist page and fix every failure before export. Deliver a 1080x1920 MP4.

VOICE LOCK — one warm American male narrator, 30-35, calm and confident, slightly amused at the question beats, dead serious at the reveal. Same voice, same pace, every clip. The narration is generated INSIDE each Flow clip; listen-check every clip and regenerate only failures.

NARRATION SCRIPT

Six lines, about ten seconds each — sixty seconds in total. Record or generate them exactly as written.

LINE 1 · 0:00
"A closed room holds one light bulb. You cannot see inside. Outside stand three switches — and only one of them works."

LINE 2 · 0:10
"Flip the switches however you like, for as long as you like. But you may walk into that room exactly once."

LINE 3 · 0:20
"After one visit, you must name the switch. Light alone gives you two answers — on or off — for three suspects."

LINE 4 · 0:30
"What extra evidence can a bulb give you? Lock your method in the comments."

LINE 5 · 0:40
"Turn the first switch on and leave it on. Let the bulb cook. Then switch it off, turn the second on, and walk in."

LINE 6 · 0:50
"Lit means the second. Dark but warm means the first. Dark and cold means the third. Follow for a new riddle every day."

VOICE LOCK — one warm American male narrator, 30-35, calm and confident, slightly amused at the question beats, dead serious at the reveal. Same voice, same pace, every clip. The narration is generated INSIDE each Flow clip; listen-check every clip and regenerate only failures.

THE THUMBNAIL

THE IDEA

Three switches on a wall, one bulb glowing warm behind a door left ajar. Edit-drawn text: 'ONE VISIT ONLY'.

IMAGE PROMPT

Flat 2D storybook illustration, vertical 9:16: a wall panel with three plain switches beside a door left slightly ajar, warm bulb light spilling through the gap into a dark hallway, deep navy palette, the top third left empty for title text, no text in the image.

Rules: the question, never the answer. Three words or fewer of big text, drawn in editing — generated lettering garbles. Check it at profile-picture size before posting.

POSTING COPY

TITLE OPTIONS — pick one:

TITLE
3 Switches, 1 Bulb, 1 Visit — Name the Switch

TITLE
The Light Bulb Puzzle With a Hidden Second Clue

TITLE
One Trip Into the Room. Total Certainty.

CAPTION — first line is the question
Three switches, one bulb, one visit allowed. After that single visit you must name the switch. What's your method? Comment BEFORE the reveal. New riddle every day.

PINNED COMMENT
Your method in one line BEFORE the reveal: what do you do with the switches, and when do you walk in?

Hashtags: #riddle #logicpuzzle #brainteaser #switchpuzzle #puzzle #dailypuzzle

EDIT CHECKLIST

Nothing posts until every line passes.

CHECK
Frame-check every beat: characters match the lock, no drift, no warped hands or faces.

CHECK
Every number and word on screen is drawn in editing and read back — generated text is never trusted.

CHECK
The question stays on screen until the reveal beat; the answer never appears early — not in a caption, not in a frame.

CHECK
Listen to the full cut: one voice throughout, no dead air, no clip where the narration went missing.

CHECK
The reveal lands in the final seconds; the last frame carries the follow prompt.

CHECK
Thumbnail checked small; title and caption lead with the question, never the answer.

AI — WHO DOES WHAT

Every step of this book's video, and whose job it is.

THE AGENT (Antigravity)
Reads this book, plans the shots, writes the generation queue, assembles the edit, runs the checklist.

GOOGLE FLOW
Generates the reference stills, then the six clips with the narration inside each clip.

THE EDITOR (you, or the agent)
Draws all on-screen text and numbers, sets captions, checks every frame and every second of audio.

THE CHANNEL
Posts with the title, caption and pinned comment from the Posting Copy page — question first, answer never.

Part 2 idea: The upgrade: three bulbs in the room, one wired to each switch. One visit must name all three — lit, warm and cold become a complete labelling system.

ABOUT THIS BOOK

One riddle, taken seriously: a verified answer, a locked visual style, and the complete route from page to posted video — script, narration, image prompts, video prompts, thumbnail and posting copy, all in one pack.

OWNERSHIP
This book — its text, structure and design — is owned by OTT TITANS. Reading or downloading it grants you the right to enjoy it and to produce your own version of the riddle video on your own channels. It never transfers ownership of the book.

The riddle itself is a classic that has travelled for years. This pack — its words, structure and production system — is the original work.

CASE CLOSED

Switch 1 on for several minutes, then off. Switch 2 on. Enter: lit means 2; dark but warm means 1; dark and cold means 3.

A new riddle lands every day. Solve the next one before the reveal.

— END OF BOOK —
