AI — WHO DOES WHAT
every step, and whose job it is

THE CASE

A farmer must ferry three things across a river: a fox, a chicken, and a sack of grain. His boat carries him plus exactly one of the three at a time.

The dangers are simple and absolute. Left alone together, the fox will eat the chicken. Left alone together, the chicken will eat the grain. The fox has no interest in the grain.

The farmer may cross as many times as he likes, in either direction, carrying at most one passenger each way. Everything must arrive uneaten.

THE QUESTION

How does the farmer get all three across with nothing eaten?

THE QUESTION + THREE HINTS

Open them one at a time. Stop the moment you have it — the last hint nearly gives it away.

THE QUESTION

How does the farmer get all three across with nothing eaten?

HINT 1

The chicken is the problem child — it is both predator and prey. It can never be left with either of the others.

HINT 2

The first passenger chooses itself: the only pair that can safely be left together is the fox and the grain.

HINT 3

One passenger will have to cross the river three times. The return trips are where the riddle is won.

YOUR MOVE

How does the farmer get all three across with nothing eaten?

Decide your answer now — say it out loud or drop it in the comments — before you turn this page. No going back.

THE REVEAL

THE ANSWER

Chicken over. Back alone. Fox over, chicken back. Grain over. Back alone. Chicken over. Seven crossings, nothing eaten.

Take the chicken across first — the fox left with the grain is harmless — and return alone. Take the fox across; but before returning, load the chicken back into the boat: the fox is never left with the chicken, and on the far bank the chicken travels with the farmer, not alone with the grain.

Leave the chicken on the home bank and take the grain across to join the fox — a safe pair. Return alone, collect the chicken, and cross one final time. The chicken crosses three times in total, and is never once left alone with either appetite.

WHY IT WORKS

The state of the puzzle is just who stands on which bank, and only two states are forbidden. The solution threads between them by treating the chicken as radioactive: always escorted, never parked next to food or a fox.

The backward trip is the insight most solvers miss — nothing in the rules says the boat returns empty, and the winning schedule uses the return as a tool, not a cost.

THE TRAP + COMMENT ENGINEERING

THE TRAP, NAMED
Shuttling fox then grain and stranding the chicken with one of them. Or refusing to bring anything back — 'wasted trips' — when the back-carry is the entire solution.

This riddle is built to split the comments into two camps. Seed both, then let them argue:

CAMP A SAYS
Team FOX FIRST: 'Take the fox first — remove the predator and the rest is easy. Chicken and grain can wait together... can they?'

CAMP B SAYS
Team CHICKEN FIRST: 'The chicken is both hunter and hunted. It crosses first, and it even rides back once. Seven crossings.'

PIN THIS COMMENT
Post your crossing order — all seven trips — BEFORE the reveal. First passenger decides everything.

CHARACTER & STYLE LOCK

[VAULT-2D] STYLE LOCK — flat 2D storybook animation, deep-navy night palette with one lime accent, clean shapes, soft moonlight, no text inside the picture except where a prompt says so, vertical 9:16. Characters never change design between clips: generate the reference stills first, then build every clip from them.

LOCK
Home bank is always screen-left, destination always screen-right, in every frame. The boat never carries more than the farmer plus one passenger — check every crossing shot.

LOCK
The animals keep one design each: rust-red fox, white chicken with a red comb, tied beige grain sack. No other animals appear.

LOCK
The two forbidden pairs are never shown actually left alone in the solution sequence — danger vignettes are clearly framed as warnings, not events.

Never redesign a locked character mid-video. If a generation drifts, regenerate the still — never accept a near-match.

REFERENCE IMAGE PROMPTS

Generate these stills first, in this order, and check each one before any video clip is made.

REF 1
REF-RIVER: flat 2D storybook illustration, vertical 9:16, a calm river with a small wooden boat tied at a grassy bank, the far bank empty in morning light, no people or animals, no text.

REF 2
REF-TRIO: flat 2D storybook illustration, vertical 9:16, a fox, a chicken and a tied grain sack in a row on a plain warm background, flat storybook style, each clearly separated, no text.

REF 3
REF-FARMER: the farmer alone on a plain warm background, flat 2D storybook style, straw hat, rolled sleeves, thoughtful expression, full body, no text.

REF 4
REF-BOAT: flat 2D storybook illustration, vertical 9:16, the small wooden boat mid-river carrying the farmer and one chicken, far bank ahead, morning palette, no text.

VIDEO PROMPT 1 OF 6

PICTURE — what Flow builds
A riverbank in morning light: a farmer with a fox, a chicken and a grain sack beside a small wooden boat. The far bank waits empty. Slow push-in.

NARRATION — generated inside this clip
"A farmer. A fox, a chicken and a sack of grain. One river — and a boat that holds the farmer plus one passenger."

Sound: River water, morning birds.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 2 OF 6

PICTURE — what Flow builds
Two danger vignettes in soft panels: the fox eyeing the chicken hungrily; the chicken pecking toward the grain sack. Both panels dim before anything happens.

NARRATION — generated inside this clip
"Leave the fox with the chicken, the chicken is eaten. Leave the chicken with the grain, the grain is eaten. The fox ignores the grain."

Sound: A fox's soft growl, grain rustling.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 3 OF 6

PICTURE — what Flow builds
The farmer loads the fox into the boat, stops, unloads it; loads the grain, stops again — the shuttle instinct failing in pantomime.

NARRATION — generated inside this clip
"Every simple shuttle strands a disaster on one bank or the other. The boat keeps arriving at a problem."

Sound: A boat bumping the bank twice.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 4 OF 6

PICTURE — what Flow builds
Freeze on the river with the boat mid-bank and all three passengers on the home side. Leave the lower third open for the pause.

NARRATION — generated inside this clip
"What crosses first? Lock your full order in the comments before the reveal."

Sound: Silence, water lapping.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 5 OF 6

PICTURE — what Flow builds
The chicken rides across alone with the farmer, is landed safely, and the empty boat returns across the calm river.

NARRATION — generated inside this clip
"The chicken crosses first — the only safe pair left behind is the fox and the grain. Then the fox crosses… and the chicken rides back."

Sound: Oars dipping, a chicken cluck.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

VIDEO PROMPT 6 OF 6

PICTURE — what Flow builds
The boat crosses one final time with the chicken aboard as the fox and grain wait peacefully on the far bank. All four stand together, uneaten.

NARRATION — generated inside this clip
"Grain over, back alone, chicken last. Seven crossings, nothing eaten. Follow for a new riddle every day."

Sound: A contented riverside calm.

One tiny action only. If the clip drifts, cut to the verified still and use a slow zoom instead.

AGENT MASTER PROMPT

Paste this whole prompt to the agent (Google Antigravity) with this book. It runs the video build end to end.

MASTER PROMPT

You are producing a 60-second vertical riddle video, 'THE FOX, THE CHICKEN AND THE GRAIN'. Use the story, hints and reveal in this book as the script — do not invent a different answer. Step 1: generate the reference stills from the Reference Image Prompts page, in order, and check each against the Character & Style Lock. Step 2: build the six clips in Google Flow, one per Video Prompt page, using Frames-to-Video from the checked stills, one tiny action per clip, narration generated inside each clip using the locked voice. Step 3: assemble the clips in order 1-6, keep the question on screen until the reveal clip, captions in the series style, no dead air. Step 4: run the Edit Checklist page and fix every failure before export. Deliver a 1080x1920 MP4.

VOICE LOCK — one warm American male narrator, 30-35, calm and confident, slightly amused at the question beats, dead serious at the reveal. Same voice, same pace, every clip. The narration is generated INSIDE each Flow clip; listen-check every clip and regenerate only failures.

NARRATION SCRIPT

THE THUMBNAIL

THE IDEA

The boat mid-river with the chicken aboard, fox and grain waiting safely apart on the banks. Edit-drawn text: 'NOTHING GETS EATEN'.

IMAGE PROMPT

Flat 2D storybook illustration, vertical 9:16: a small wooden boat mid-river carrying a farmer and a white chicken, a fox waiting on one bank and a grain sack on the other, morning light, the top third left empty for title text, no text in the image.

Rules: the question, never the answer. Three words or fewer of big text, drawn in editing — generated lettering garbles. Check it at profile-picture size before posting.

EDIT CHECKLIST

Nothing posts until every line passes.

CHECK
Frame-check every beat: characters match the lock, no drift, no warped hands or faces.

CHECK
Every number and word on screen is drawn in editing and read back — generated text is never trusted.

CHECK
The question stays on screen until the reveal beat; the answer never appears early — not in a caption, not in a frame.

CHECK
Listen to the full cut: one voice throughout, no dead air, no clip where the narration went missing.

CHECK
The reveal lands in the final seconds; the last frame carries the follow prompt.

CHECK
Thumbnail checked small; title and caption lead with the question, never the answer.

AI — WHO DOES WHAT

THE AGENT (Antigravity)
Reads this book, plans the shots, writes the generation queue, assembles the edit, runs the checklist.

GOOGLE FLOW
Generates the reference stills, then the six clips with the narration inside each clip.

THE EDITOR (you, or the agent)
Draws all on-screen text and numbers, sets captions, checks every frame and every second of audio.

THE CHANNEL
Posts with the title, caption and pinned comment from the Posting Copy page — question first, answer never.

Part 2 idea: The classic reskin race: same machine as a wolf, a goat and a cabbage, run against a 30-second on-screen timer — viewers who learned the chicken's back-carry will finish early and teach the rest.

ABOUT THIS BOOK

One riddle, taken seriously: a verified answer, a locked visual style, and the complete route from page to posted video — script, narration, image prompts, video prompts, thumbnail and posting copy, all in one pack.

OWNERSHIP
This book — its text, structure and design — is owned by OTT TITANS. Reading or downloading it grants you the right to enjoy it and to produce your own version of the riddle video on your own channels. It never transfers ownership of the book.

The riddle itself is a classic that has travelled for years. This pack — its words, structure and production system — is the original work.

CASE CLOSED

Chicken over. Back alone. Fox over, chicken back. Grain over. Back alone. Chicken over. Seven crossings, nothing eaten.

A new riddle lands every day. Solve the next one before the reveal.
